

Sublimation Boss Starter Guide: 5 Free Tips to Avoid Beginner Mistakes

Hey Boss! I'm so glad you're here.

Whether you're brand new to sublimation or still learning the ropes, this guide will help you avoid some of the most common mistakes I made when I got started.

1. USE THE RIGHT PAPER FOR THE RIGHT PROJECT

Don't use copy paper or generic sheets always go for true sublimation paper.

2. CHECK YOUR PRESS TIME & TEMP

The wrong heat/time combo causes ghosting, dull colors, or warping.

3. ALWAYS MIRROR YOUR DESIGN

Trust me... forgetting this step has cost me sooo many blank shirts.

4. DON'T SKIP THE LINT ROLL OR PRE-PRESS

It keeps your prints from getting weird lint burn spots or lines.

5. TEST PRINT ON PLAIN PAPER FIRST

Especially with new designs test before wasting good supplies.

BONUS BOSS TIP

Stay organized! Keep a checklist of your print settings for different products (tumblers, shirts, socks, etc.) so you never second-guess yourself.

Need custom chip bags, shirts, or help with party favors? I got you!
